Software Engineer with 3 years of experience building scalable, user-friendly web applications at Cisco using Angular and TypeScript. Skilled in Node.js and Python, with a strong full-stack foundation. Currently expanding expertise in React to stay aligned with modern frontend technologies. Passionate about writing clean, maintainable code, optimizing performance, and delivering intuitive user experiences. Seeking a role in a product-driven tech company to grow as a developer and contribute to impactful digital products.

## PROFESSIONAL EXPERIENCE

### Cisco Systems

September 2022 – Current

Software Engineer

- Designed, developed, and maintained interactive dashboards within scalable applications using Angular, Node.js, and MongoDB, enhancing performance, reliability, and efficiency for supply chain product quality and compliance systems.
- Delivered new frontend features for a partner-facing application using Angular, RxJS, and PrimeNG, contributing across the full development lifecycle – from mockups to implementation and testing.
- Collaborated with cross-functional, international teams under Agile methodologies to deliver high-quality solutions within fast-paced development cycles.
- Led code reviews, promoted best practices, and optimized performance to ensure maintainable, industry-standard codebases.
- Placed 30th of 245 global teams (Top 5 in Cisco Supply Chain) in a Cisco IT AI Hackathon by developing a Python-based LLM prototype that automated cybersecurity questionnaire scoring and generated justifications, integrating the solution into an Angular app within 24 hours.

### Capgemini

April 2022 – June 2022

Junior Software Engineer - Summer Internship

- Training in .NET/C#
- Training in Java
- Microsoft Certified: Azure Fundamentals
- Exam AZ-204: Developing Solutions for Microsoft Azure

## EDUCATION

Faculdade de Ciências da Universidade de Lisboa

2018 - 2022

BSc Computer Science

## SKILLS

- **Technical:** Angular, React, Typescript, Javascript, HTML/CSS, RxJS, PrimeNG, AG Grid, Node.js, Python, FastAPI, Git (GitHub, Bitbucket), SQL, MongoDB, Agile methodologies
- **Languages:** Portuguese (Native), English (Level C1)
